**Providing specialist services across Lincolnshire  
for people with sight and/or hearing loss**

Lincolnshire Sensory Services provides specialist support across Lincolnshire for people who are Visually impaired, Deaf, Hard of hearing or have Dual sensory loss.

Our team understand the practical and emotional challenges that people with sensory loss face in their everyday lives and we work to promote independence, accessibility and wellbeing for people of all ages.

The service is delivered by Action on Hearing Loss on behalf of Lincolnshire County Council and works closely with other organisations, professionals, carers and families to promote a better understanding of the impact of sensory loss.

Our services include:

- Registration of sight, hearing and dual sensory loss.
- Information and guidance on living with sensory loss.
- Equipment to help maintain safety and independence.
- Mobility training such as long cane skills and routes for safe and independent travel.
- Daily living skills training.
- Social development and mobility for children with sensory impairment.
- Signposting and referral to other services, organisations and groups for longer term support.

With the help of volunteers, we also provide support across the county through our Community Drop-ins, some of which offer NHS hearing aid re-tubing and battery replacement.

Please contact us to find out what's available in your area.
